ABOUT US

The advent of self-service technology unlocked effective ways to enhance customer service. With more and more businesses investing in this technology, we now have a plethora of self-service kiosks across the world. Ai Doctrine comprehends the true value of AI and hence offers groundbreaking self-service kiosks to give your business a competitive edge in the world. Businesses that don't adapt to changing technology lose their credibility and attraction. Currently, our services are available in Kuwait, Qatar, UAE, Oman, KSA, Bahrain, Nigeria, Libya, Sudan, Algeria, Egypt, Iraq, and South Africa.

Please rephrase this sentence. By adopting this technology, you have unlimited possibilities to achieve excellent performance at a lower cost with minimum staff.

CONSULTA® Kiosks Series is an out-of-the-box solution for services that require time. It's like your desk employee but with more efficiency. It's used for long waiting services like opening new bank accounts that require information. Convenience, customer care, and cost-effectivity are at the core of self-service kiosks.
